About us:

The company was founded by Andreas Rauwolf, who was looking for a new challenge after studying electrical engineering and many years in electrical development, software development, sales and management. The trigger for starting something new was the unexpected loss of his partner, which gave Rauwolf a new perspective on life and the priorities in his own lifestyle. The realisation that something beautiful and new can also emerge from setbacks in life flowed into the founding of the new company, which combines the themes of design, nature and state-of-the-art technology. Accordingly, the Itsu luminaire is named after his former partner.

We may introduce: ITSU One and ITSU Trio

A voluptuous and enchanting light object, formed by clean design and natural materials, ITSU combines brilliantly an elegant massive metal base, crowned by a cube of warmly glowing onyx marble with latest LED technology.

Unique and personalized, your lamp exists only once: the lamp bodies made of solid onyx marble are lovingly handcrafted in an Italian manufactory. This preserves the individual character of each stone and its continuous structure. The cube is supported by a heavy metal base, which is either genuine gold-plated or chrome-plated, depending on your personal choice. The result is a dreamlike play of light and one of a kind light object that will attract all eyes.

ITSU comes equipped with latest IoT-Functionality. The LED colour and brightness can be controlled via the local button, via mobile phone or via smart-home hubs with Zigbee. The integrated rechargeable battery allows spontaneous placement of the lamp where you want and need it.

Variety guaranteed

Nature allows an infinite variance of the lamp, each onyx cube is unique, each structure is individual. Change your luminaire according your mood, the season or surroundings: additional onyx marble cubes can be purchased seperately

Elegant design with a heart of technology

State of the art LED technology
The sixteen integrated RGBW LEDs produce an almost infinite colour variance about 16 million colours. Brightness can be dimmed to suit the desired mood; control is intuitive via buttons and gesture control, via Bluetooth (BLE) or Zig-bee. Lighting animations such as a candle simulation create a cosy atmosphere.

Wireless freedom

Dinner with friends and afterwards a movie in the living room? ITSU is your elegant light companion through the evening and is portable and wireless. The generously dimensioned Li-Ion battery provides an on-time of at least 8h. ITSU can Be remotely controlled via Zigbee or via your smartphone (free app for Iphone and Android available).

Charging

The integrated lithium-ion battery of the ITSU One can be easily charged with the supplied power supply unit. To do this, simply plug the charging cable into the back side connector at the lamp.

The button on the front of the unit is illuminated in red or green to indicate that the battery is being charged or has been charged.

The optionally available charging cradle fits elegantly and perfectly into the overall design of the luminaire and enables simple and very convenient charging without having to plug in the charging cable. To charge, simply place the ITSU One on the charging tray.

Quality and craftsmanship

Made in Germany: Each lamp is carefully produced, checked and packed for you.

Sustainability: the modular design of the luminaire guarantees a long lifetime: elements such as the LED module or the battery can be replaced.

Technical Data

Description	ITSU One: Portable table luminaire with integrated battery ITSU Charger One: Optional charging cradle for ITSU One ITSU Charger Trio: Optional charging cradle for three ITSU One
Supply voltage	230 VAC, 50-60 Hz (Power supply unit included, can be connected directly to the lamp or to the optional)
Light technology	12 VDC, SELV, Class 3
Power consumption	ITSU One: 4.8 W ITSU Charger Trio: 14.4 W
Illuminance	Max. 90 lux at a distance of 200 mm
Light source	permanently installed, replaceable by qualified personnel, 16 RGBW LEDs, approx. 16 million colours, adjustable dimmable, candle simulation mode
Battery	Li-Ion, permanently installed, replaceable by qualified personnel
Operating hours in battery mode	Minimum 8 hours at maximum brightness setting
Interfaces	Bluetooth Low Energy (BLE), Zigbee
Zigbee compatibility list	Amazon Echo Plus: on/off, dimming, color setting
Dimensions L x W x H	ITSU One: 100 x 100 x 132 mm ITSU Charger One: 100 x 100 x 25 mm ITSU Charger Trio: 420 x 160 x 25 mm
Weight	ITSU One: approx. 2.7 kg ITSU Charger One: approx. 1.8 kg ITSU Charger Trio: approx. 4.1 kg
Lamp body	Natural onyx marble, can be replaced without tools
Brass base refinement options	Gold, chrome, both either high gloss or brushed
Tests, standards	CE, IEC EN 60598-2-4
Degree of protection	IP20, protection against objects, no protection against water

ITSU One

Set consisting of an ITSU One luminaire and a power supply unit. The Charger One charging cradle is optionally available as an accessory. Alternatively, the power supply unit can be used directly with the luminaire.

ITSU Trio

Set of three luminaires ITSU One, Charger Trio triple charging unit and power supply unit.

ITSU One

Dimensional drawing

Show the facets of your personality: ITSU Two

Onyx marble gives your room an incomparably elegant atmosphere. Formed after hundreds of millions of years, onyx marble radiates a warm glow and is known for its refined decorative effect. Use these positive properties for your ambience and emphasize your uniqueness with timeless elegance.

As individual as your personality: the heart of our onyx lamps is the onyx cube, which is manufactured in Italy with the highest level of craftsmanship. A unique piece is created when we additionally coat and process the stone with gold leaf or Svarovski crystals at the customer's request to create their personal piece of jewelry.

The luminaire contains an RGBW LED module for up to 16 adjustable colors and three types of white light. The integrated rechargeable battery guarantees up to twenty hours of independent operation, for example on your patio or in the garden on warm summer evenings. Afterwards, the light is quickly recharged within 3-4 hours via USB-C. The included remote control allows you to conveniently change the lighting settings and a timer for automatic switch-off.

ITSU Two, faceted onyx cube covered with gold leaf (personalized, custom-made)

Technical Data:

Designation	ITSU Two, Table lamp
Supply voltage	5 VDC; USB-C; plug-in power supply not included
Lighting technology	RGBW-LED, CRI >= 80 RA
Power consumption	< 4,5 W
Illuminance	< 350 LM
Light source	RGBW LED module; 16 adjustable colors; module can be replaced by qualified personnel
Dimensions L x W x H	116 x 116 115 mm
Light weight	Approx. 1,6 kg
Luminaire body	Natural onyx marble; solid
Luminaire base	Aluminium; matt black anodized
Tests / Standards	CE, IEC EN 60598-2-4
Degree of protection	IP20
Rechargeable battery	2000 mAh
Lighting duration (luminosity)	20 h (low); 8 h (medium); 5 h (high)
Charging time	3 - 4 h; light can be used during charging
Operation	Touch on the bottom side (required for initial switch-on); remote control

ITSU Two Scope of delivery:
Light, USB-C charging cable, remote control

Pures Design: ITSU Solo

Ein sinnliches und bezauberndes Lichtobjekt, geformt durch klares Design und gefertigt aus natürlichen Materialien: ITSU kombiniert auf brillante Weise den eleganten massiven Metallsockel, gekrönt von einem Würfel aus warm strahlenden Onyx-Marmor.

Einzigartig und individuell, Ihre Lampe gibt es nur ein einziges Mal: die Leuchtkörper aus massivem Onyx-Marmor werden in liebevoller Handarbeit in einer italienischen Manufaktur gefertigt. Dadurch erhält sich der einmalige Charakter jedes Steines und seine durchgehende Maserung. Getragen wird der Würfel durch einen schwere Aluminiumfuß, wahlweise in goldfarbenen oder silberfarbenen beschichtet. Das Ergebnis sind traumhafte Lichtspiele und Reflexionen Ihres persönlichen Lichtobjektes, das alle Blicke auf sich ziehen wird.

Der Zusatz „Solo“ steht für den Fokus auf Design und die Möglichkeit den Onyxstein wechseln zu können. Die ITSU One Solo, im Vergleich zu ihrem großen Bruder ITSU One, ist nicht batteriegepuffert, besitzt einen Standardsockel G4 für LED-Leuchtmittel Ihrer Wahl und beinhaltet einen in der Zuleitung eingebauten Dimmer zur Einstellung der Helligkeit vor Ort.

Technische Daten:

Bezeichnung	ITSU Solo: Tischleuchte
Versorgungsspannung	230 VAC, 50-60 Hz (Steckernetzteil enthalten)
Lichttechnologie	12 VDC, SELV, Klasse 3
Leistungsaufnahme	ITSU Solo: 3,5 W
Beleuchtungsstärke	Max. 90 Lux in 200 mm Abstand
Leuchtmittel	G4; MAX 3,5 W; LED; DIMMBAR
Abmessungen L x B x H	100 x 100 x 132 mm
Gewicht	ca. 2,1 kg
Leuchtkörper	Natürlicher Onyx-Marmor, werkzeugfrei tauschbar
Leuchtenfuß	Aluminium, goldfarben oder silberfarben
Prüfungen, Normen	CE, IEC EN 60598-2-4
Schutzgrad	IP20, Schutz gegen Objekte, kein Schutz vor Wasser

ITSU One Solo
 Set aus einer Leuchte ITSU One Solo, und Netzteil. Ein Dimmer zur Regulierung der Helligkeit ist in der Zuleitung enthalten.
